

arc::search::min

```
graph LR; A[arc::search::min] --> B[arc::search::min_index]
```

A diagram showing a pointer relationship between two variables. On the left, a gray rectangular box contains the text 'arc::search::min'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'arc::search::min_index'. Both boxes have a black border.

arc::search::min_index
